

August 2022 Distress Call

Northern Hemisphere extremes:

Heatwaves

Droughts

Crop failures,

Mediterranean Sea

31C,

Mass Mortality Event

Forthcoming.

Amazon de-rainforestation
Exceptional tear,
Bolivian jungle reserves,
Forty per cent
Fracking siege.
Brazil's Pantanal wetlands,
Searing temps, bone-dry
Colossal animal crematorium.

Global forest fires,
Annual worsening
Three million hectares,
Billions cinder burnt creatures,
Unearthly silence.

Great Southern Ocean
Largest planetary concentration,
Antarctic krill
Cornerstone of life,
Fisheries
Fourfold assault
Fifteen years,
Unravelling collapse.

Fossil fuel addicted
Animal-eating adults,
Denial
Delusion
Greed.

Climate Generation,
Rebellion
Or
Futureless?
Go for broke,
Upend
Corrupt ruptured system!
