

‘Mind-blowing’ Mediterranean Marine Heatwave

Twenty twenty-two
European summer,
Hottest driest
Record smashers,
Mon Dieu!

Four hundred
Million people
Mediterranean region,
Sea heatwave
5C above mark,
Fifty different kinds
Land/sealife
Died off!

Heinous pollution,
Cataclysmic fisheries,
Seismic subsidised surveys,
Two hundred forty-two
Deafening decibels,
Nineteen thousand
Sea squared kilometres
Egypt alone,
Fossil fuel plundering,
More fracking
More combustion
More heatwaves,
Agonising murders!

No turning back
Climate Generation,
Disobedient uprising!
Extinction bankers
Exit stage right,
GDP out
Contentment Index in,
Defending Mother Earth
Sole purpose,
Survival.
