

Australia's Gift to Fossil Fuel Companies

Anthony Albanese
(Albo),
Australia's Prime Minister,
Fossil fuel
Lackey,
Business as usual,
Extinction bankers
Dictating endgame.

Forty-seven thousand
Square ocean kilometres
Commence carpet bombing,
Two hundred forty-two
Nonstop deafening decibels
Months on end,
\$29 billion subsidised
Planet fricasseeing
Carbon combustion.

BTW

A deaf whale
Is a dead whale!

Plundering
Polluting
Profiteering
In climate emergency
Really?

Climate Wars,
Game on Albo!
Climate Generation
Defiant rebellion,
True-blue.
