

## **Sea Dumping, Really Australia?**

Another rort!  
Dumping carbon,  
Undoing seabeds  
Mother's sacredness,  
Planetary safeguarders.

Appeasing polluters  
Fossil fuel corporations,  
Sea dumpers,  
Combustion greenwashers,  
More subsidies  
Largest wealthiest perpetrators,  
Furnace fiends!

Five fattest fuellers:  
Exxon  
Shell  
British Petroleum  
Chevron  
TotalEnergies,  
Twenty twenty-two to three,  
Collectively pocket'd  
Two hundred thirty-eight  
Mother's blood-money billions,  
Calculating corporatocracies.

Oz Prime Minister  
'Frackin' Albo'  
Elected climate tackler,  
Betrayal,  
Three new coal mines  
One gargantuan frackin' field,  
Another Mother-loather  
Planet-wrecker,  
Greens governance gladly!
