

Take That Bottom Trawlers

Ocean floor
Largest planetary
Carbon storehouse,
Subsidised bottom trawling
Destroying all sealife,
Unlocking stored carbon,
Hastening global heating.

Ocean defenders,
Defiant
Courageous
Frugal
Persistent
Imaginative!

Dropping boulders
Blocking industrial
Planet ruining
Floating slaughterhouses,
Protecting marine life,
Preventing carbon heists.

Boulder barriers,
Booyah
Bottom trawlers,
Get outta the oceans!
Go plant-based,
Love nature.
